Preface
“Cancer in South Dakota 2015” is the 23rd annual report from the South Dakota Cancer Registry (SDCR) in the Office of Chronic Disease Prevention and Health Promotion in the Division of Family and Community Health within the South Dakota Department of Health (DOH). The report contains 2015 cancer incidence and mortality data of South Dakota residents.

Acknowledgements
The South Dakota Cancer Registry acknowledges all the Certified Tumor Registrars in hospital cancer registries who work diligently to maintain quality data, hospitals, clinics, physicians, pathology laboratories and other providers and health entities that submit data to the SDCR, and co-workers in the Department of Health.

Funding Source
This publication was funded by the South Dakota Cancer Registry with a grant from the Centers for Disease Control and Prevention – grant number DP006293.

Changes in Report
Age-adjusted rates were calculated using the 2000 US standard million and the US Census Bureau 2002 - 2015 population estimates for South Dakota. Reports published before 2012 used the 2000 South Dakota census population for age-adjusted calculations and are not comparable to this report.

Requests for Information
Data queries, cancer concerns, information, or requests for additional copies (if available) should be addressed to:

Kay Dosch, CTR, Coordinator
South Dakota Cancer Registry
615 East 4th Street
Pierre, SD 57501-1700
Phone: (605) 773-6345

Suggested Citation
*Cancer in South Dakota, 2015.* Department of Health, Pierre, SD. April 2018. All material in this report may be reproduced or copied without permission. However, citation as to source is appreciated.
